Office Action Summary

RESTRICTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5, 14, 16, drawn to a shelf with a concave beveled surface, classified in class 379, subclass 466.
- II. Claim 10, drawn to a shelf having a specific notch and a specific stem, classified in class 379, subclass 454.
- III. Claims 6-9, 11-13, 15, drawn to a shelf having a specific channel and guide ridges, classified in class 224, subclass 482.

2. The inventions are distinct, each from the other because:

Inventions Groups I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions involve Group I having a specific shelf having a concave surface which does not require the specific channel as it is required in Group III, nor the specific notch and stem in Group II.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. A telephone call was made to Mr. James R. Young on 06-10-04 to request an oral election to the above restriction requirement, but did not result in an election being made.

(NOTE: there might be a potential 112 first paragraph rejection and objection on the drawings on claims having the combination of the "stem" and the "notch"/"ridges", because the only drawing shows the stem is Fig. 10, and this figure does not have a shelf having a "notch"/"ridges".).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Chiang whose telephone number is 703-305-4728. The examiner can normally be reached on Mon.-Fri. from 8:00 to 6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ahmad Matar, can be reached on 703-305-4731. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
